

Turbo

Hard Surface Tool

With the cleaning capacity of 500 to 1000 square feet per hour, the **Turbo** by **U.S. Products** is the biggest breakthrough in hard surface cleaning. It's lightweight, yet solid and it resists impact. With no wheels you have unrestricted travel in all directions. The stainless steel handle with fiber re-enforced shell gives it durability. An extra long life hard surface ring and nylon brush ring are included. The easy access in-line filter makes maintenance a breeze and the comfort grip non-slip handle makes it easy to operate.

Turbo's patented automatic vacuum compensator leaves the floor drier than any other tool! Adding the turbo to your equipment selection will give you the ability to offer more services and bring in more business. Call or go on line today to learn more about the **Turbo** from **U.S. Products**.
